

Usage of the LGBTQ+ YA COLLECTION

1

Total usage since creation of collection

The LGBTQ+ YA collection, with 100 total titles, has been up since the end of October 2022. Already, 35% of the titles in the collection have circulated.

54

in house + not in house loans

before

after

2

Loans after moving to the collection

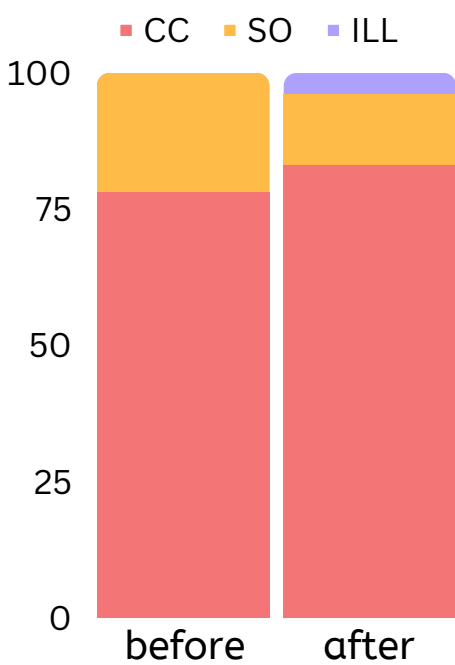

These numbers come from books we had before October 2020 for a direct comparison of use. For a year before the collection was created, these books were loaned 22 times, compared to 39 since moving locations.

3

Percent increase in loans

Loans of these books that moved to the collection have almost doubled. Giving them visibility in the Rookery has worked!

77%

4

Usage of the collection by school

To confirm that the location of the books made an impact on usage, we would expect Carleton users to increase since the collection was put up. And we do see a small increase, as well as a couple ILL uses!

5

Patron type

Who's using the YA collection? See a breakdown of it's users on the right!

It's good people are using the collection :)
